ABOUT THE PLACEMENT PROGRAM

Thousands of students complete data-related courses every year—yet many still struggle to get a job. The problem isn't a lack of knowledge. The real issue is that they are not job-ready.

Most courses only focus on theory or help make a good resume. But today's companies don't hire based on resumes—they hire candidates who are skilled, confident, and ready to contribute from day one. This is where most students fall short.

To solve this problem, we launched the **Analytics Career Connect Placemen Program** a complete **data domain** designed to make you **job-ready in 90 days**.

This is not just a Data Analyst programs. We prepare you for **multiple roles in the data field**, with real-world skills, tools, and experience.

What we focus on:

- Building your **technical skills** across 10+ top tools
- Developing **soft skills**, communication & teamwork
- Working on **20+ real projects** to build confidence & hands-on experience
- Team collaboration in a **corporate-style environment**
- Exposure to 12+ **industry domains** like E-commerce, Healthcare, Banking, Retail, and more
- Simulated job tasks and **mock interviews**
- Building a complete **job-ready portfolio**
- By the end of the internship, you're not just trained — **you're ready to work in the real world.**

WHY CHOOSE THIS PROGRAM?

We researched and spoke with hundreds of students. Most of them completed courses, but still couldn't land a job. Why?

Because they were taught concepts — not how to apply them in real scenarios.

Companies today don't want to train candidates from scratch. They want people who are already job-ready. Our Placement Program fills that gap with a practical, project-driven approach.

What makes this program different:

- ✓ 60% Practical Learning + 40% Guidance
- ✓ 20+ Real Projects in 12+ Industry Domains
- ✓ 10+ Tools and Technologies Covered
- ✓ Daily Standups, Team Reviews & Live Feedback
- ✓ Soft Skill Training + Resume + LinkedIn Support
- ✓ 1:1 Mentorship & Interview Preparation
- ✓ Mock Interviews with Feedback
- ✓ Work Culture Simulations like in real companies
- ✓ **Pay after the Placement Program no upfront payment burden**

You'll learn to **think, work, and grow like a real data professional** — not just a student.

HOW DOES IT WORK?

- **Choose Your Path**

- Full-Time (3 Months): Best for freshers and active job seekers.
- Part-Time (6 Months): Suitable for students or working professionals

- **Daily Learning & Projects**

- Live interactive sessions
- Team meetings & collaborative tasks
- Real-time project execution

- **Personalized Mentorship**

- 1:1 career coaching and guidance
- Resume building & LinkedIn optimization
- Interview preparation & tracking progress

- **Corporate-Style Work Culture**

- Daily standups and weekly reviews
- Cross-functional team tasks
- Workflows similar to real-world job environments

Affordable: Pay ₹2,000 Now (Registration Fee)
+ Pay ₹1,000 Later – Only After You Get a Job!

Total Investment: ₹3,000 only, yes, just ₹3,000,
not ₹30,000 like expensive courses!

ABOUT THE FOUNDERS

Wasim Patwari – Founder & CEO, Analytics Career Connect

At Analytics Career Connect, our mission is to empower 10 million youth of Bharat by making technical education affordable and accessible to all.

We leverage technology-driven solutions to provide industry-relevant skills, bridging the gap between education and employment.

Our goal is to create equal opportunities for individuals from Tier 2, 3, and 4 cities, ensuring that everyone gets a fair chance to build a career in tech.

We are committed to solving India's unemployment problem by equipping individuals with job-ready skills, mentorship, and freelancing opportunities.

Through internships, mentorship programs, and job assistance, we aim to transform freshers and professionals into high-value industry-ready talent.
